UP Beta Sigma Fraternity Credo

*I am a **Beta Sigman** and I am proud of it. I wear my Fraternity Pin knowing that it represents all that is good and noble in man. To me, it is not a mere piece of tin alloy and gold, for its worth lies not in its ingredients but in the price I have to pay before it is mine to keep; a price computed not in terms of pesos, but of sacrifice, sweat and blood. It must be earned before it is worn.*

*My **Fraternity Pin** has a history all its own. It tells of the saga of men who climbed the barriers of wealth, region, creed, and prejudices so that they may create a feeling of kinship predicated upon sympathy, understanding, friendship, and equality.*

*As a **Beta Sigman**, I must cultivate the seeds of love and uproot the weeds of hatred, avarice, and envy. My actions must never stray in a direction that will cast dishonor upon the name of my Fraternity, defy its traditions, nor lower the tone of its dignity.*

UP Beta Sigma Fraternity Inc. (Central)

Message from the President

We congratulate UP Beta Sigma for 73 fruitful years.

It gives me great pleasure to congratulate every member and leader of the UP Beta Sigma Fraternity as we embark on a three-fourth century journey of, creating a solid bastion of our brotherhood.

IN 2 YEARS, WE SHALL CELEBRATE DIAMOND JUBILEE, A SYMBOL OF OUR SUCCESS.

This year, we focus on the theme, Good and Noble in Men, @73 to remind ourselves of our basic aspiration and duty to ourselves. We uphold goodness to every human being, and to our society while being able to live an honorable life. WE REFLECT ON THE CHARACTER OF A TRUE BETA SIGMAN WHO EMBRACES LIVING A LIFE OF DIGNITY AND WITH THAT PRINCIPLES IT SET US APART AS A FRATERNITY OF CHOICE.

Goodness and nobility are inherent traits that tie us together as brothers. Goodwill is the mark of a righteous man. Goodness calls us to be kind, to be sincere and honest to one another. When we have goodness, we cannot but co-create. When we have goodness, we cannot think of corrupting others. Goodness will never destroy.

On the other hand, nobility is a proof of unconditional dignity. A noble man is honorable. We respect him and emulate him. We see him as a hero, set apart from others, due to his great character and virtue. With nobility, we cannot bring down our dignity to level that is less than human.

Allow me to thank you, my Brothers and Sisters, for trusting our leadership. Your faith in the goodness and nobility of everyone has empowered us to serve with honesty and magnanimity. Ours have been a very enriching journey.

We ALSO thank God for letting the flames of goodness and nobility burn in our fraternity. Like knights in a SHINNING ARMOR, we sit together in the round table as true brothers and friends. Let us celebrate and toast high for UP Beta Sigma Fraternity showing our armor in camaraderie, raising our flags and BANNERS HIGH to promote goodness and honor in our society.

Thank you and God bless us all!

UP Beta Sigma Fraternity International

Message from the President

On behalf of the UPBS International, I would like to congratulate the incoming Officers and BOTs of the UPBSFI (Central), and a heartfelt appreciation to all the Event Organizers/Planning committee members who are responsible in making this 73rd Anniversary celebration a truly memorable and a successful event.

As in the past – UPBS International is always willing to coordinate with UPBSFI Central, in any invaluable projects that they plan to undertake, such as new recruitment programs in all UP campuses. UPBSI is open to any collaborations with any entity that will foster our common goal – to maintain and make UP Beta Sigma as the Fraternity of Choice, in all our campuses.

As our Founding Brother Rico Arranz once said, and I quote: "If we do something good for the fraternity - it should not be with the expectation of any reward, or any considerations of fame or personal glory".

My dear brothers – we do something good for our beloved fraternity, simply because it is the right thing to do!

Cheers! Cheers! Cheers!

Message

Chairman
2019 Grand Fraternity Ball Committee

When we look back at the past year, it's good to step back and reevaluate the things we know about our beloved Beta Sigma Fraternity – where we are at, and where we want to be.

I believe that our 73rd anniversary's theme, “The Good and Noble Men”, fittingly captures the spirit that has driven this Brotherhood to its glorious heights. This continues to be our aspiration, and we fervently hope this persists as we grow our ranks in these changing times.

Brod Rupert Ambil's editorial piece reminds us to reassess our relevance in these changing times, recommit to our principles, and to act collectively. This sums up our aspirations for today.

But for this special night, we come together and celebrate! We take pride in saluting our brothers who have excelled in their fields of expertise and have served our Fraternity over and beyond the call of duty. We relive our lore – the experiences ingrained in our collective memories that become legends to our younger generation of brothers. And we share the hope that the Brotherhood will continue to grow and thrive.

We extend our heartfelt thanks to all the brods who have consistently provided their support our beloved Fraternity! May our tribe increase!

Cheers!

Greetings Brothers!

This AY 2019-2020, we celebrate our 73rd year of our beloved fraternity. For this term, we plan to continue to establish our presence in the university by conducting activities geared toward a healthy participation from the student body. One event is the SOMA, which would be open to all students. Through open participation, we hope to allow students to get to know the fraternity better and to solidify our foundations in the university.

To all the brods around the world,

We really have taken the name of our beloved fraternity far and wide. In fact, we have reached our 73rd anniversary growing steadily and our members are still proving that once a Betan always a Betan. Even though we are still residents of the UP Beta Sigma Fraternity, we from the UP Baguio chapter already owe a lot to our beloved fraternity. Let us continue to do ordinary things extraordinarily well.

Congratulations to us! Cheers for more fruitful years to come!

A call to reflect, a challenge to act; 'All that is good and noble in man'

In a time of disruptive change, what is the significance of our fraternity, one of the oldest in the country? And in an increasingly interconnected world, how should we strengthen our brotherhood?

UP Beta Sigma's 73rd anniversary is not only a celebration but also a call for introspection and action.

Revisiting the fraternity's bedrock principle is crucial to addressing these questions that challenge old institutions like ours.

What do we represent to begin with? "All that is good and noble in man." This has guided the fraternity life for decades. Our moral compass in glorious times or bad. The same belief that made us the first fraternity to adopt a non-physical way of initiation back in 1991.

If there is any tradition that must be kept alive, it should be that ideal. It is the provenance of our relevance.

As we take stock of our fraternity life, let us renew our commitment to these values that bind us. This is the first call.

In the age of technology, these values that we nurtured in our tambayan and strived to uphold outside the university, should be amplified online and offline. And it should be demanded from each of our brothers. It establishes our ascendancy and integrity not only at school but in the fields where we wield influence - business, politics, social causes, sports, the arts and sciences.

The digital world instantly links up people and rapidly builds groups, but it can also destroy the same in a click. We can embrace and harness technology and innovation that help bridge generations of Betans. The point,

however, is not just to connect but to engage the brotherhood, fostering a culture of respect and equality while nurturing loyalty in an age of transient ties. This is the second call.

The lifelong bond between our brothers becomes even more meaningful if lived for a higher purpose - serving with our principles in mind. The wisdom and example of the alumni play an important role in tending this ethos. If shared with resident brothers, our insights and experience can inspire a grounded fraternity life. They can guide our brothers toward lives of service and honorable action, empowering them to initiate legacy projects for the campuses and communities that made us who we are today.

Our role in nation-building cannot be overemphasized. The alumni's presence and success in various fields place the organization in a distinct position to create social impact. The challenge is to tap into the strength of our diversity, mobilizing generations of Betans into communities of change.

Prevailing social conditions require enlightened civic participation. The rich history of our fraternal kinship has shown us how to respond with vigor as individuals and as an organization. This is our call to action.

TWENTY-SEVEN years ago, Brod Enrico Corvera decided to dedicate his life to public service as he returned to his hometown of Nasipit in Agusan Del Norte.

For a start, he won a seat in the Sangguniang Bayan, and in 1995, became the town's vice mayor. He won the mayoralty race in 1998, and served as the town's chief executive for three consecutive three-year terms. In 2007, he was elected vice governor of Agusan Del Norte until 2007. After a two-year term, he opted to become again the Nasipit mayor in 2013, a post he currently holds.

During his incumbency as Nasipit mayor, his town was honored by the National Competitive Council of the Philippines as 1st place in "Economic Dynamism" among 3rd to 6th Class Municipalities in July 2015, 3rd place in July 16 and 2nd place in "Resilience" among 3rd to 6th Class Municipalities in August 2017.

Various provincial and regional awards were also given to Nasipit in the field of nutrition, legislation social services and governance.

DELFIN J. GANAPIN, JR. '72 UPLB

BROD Delfin J. Ganapin has a Ph.D. in Environmental Planning and Policy from the State University of New York. He was a faculty member in Forest Ecology of the College of Forestry of the University of the Philippines at Los Baños where he finished his bachelor degree in 1977 as its first post-war Magna cum

laude graduate. He organized the Philippine Federation for Environmental Concerns (PFEC), a broad network of NGOs and individuals, which promoted rights and defended the environment despite the Martial Law period at that time. For work in community organizing of upland farmers he received a Ten Outstanding Young Men award.

In 1989, Brod Delfin was recruited into government to serve as Director of the Environmental Management Bureau and then Assistant Secretary (1989-1992). In this position, he developed the implementing rules and regulations for the strengthening of Protected Area Management Boards particularly in aspects of local community and civil society participation.

He also worked with WWF-US for the country's first debt-for-nature swap initiative, becoming the first Executive Director upon leaving government of the Foundation for the Philippine Environment, the NGO body tasked with managing the endowment fund from the debt-for-nature swap.

He was recruited back by government to serve as Undersecretary for Environment (1995-1998) and led the advocacy from within government for the passage of the Indigenous Peoples Rights Act as well as the strengthening of the EIA system through the implementation of a "Social Acceptability" requirement, a precursor to the later "prior informed consent" policy in the country.

He represented the Philippines in the Conference of Parties of the Biodiversity as well as Climate Change Conventions, chaired the ASEAN Officials for Environment (ASOEN), was a member of the Global Environmental Facility (GEF) Council, and of the Executive Committee of the Multilateral Fund of the Montreal Protocol. For work as a civil servant, he received a Most Outstanding Alumnus award from the University of the Philippines at Los Baños.

Upon leaving government in mid-1998, he again coordinated the Philippine Federation for Environmental Concerns and the Philippine Civil Society Counterpart Council for Sustainable Development while undertaking environmental planning and evaluation consultancies in the country and abroad with development agencies such as the UNDP, World Bank, European Commission, Asian Development Bank, USAID and AusAID.

In 2003, he was selected as Global Manager of the UNDP-GEF Small Grants Programme (SGP) tasked with building the capacity of local communities and CSOs to manage and protect their environment while also gaining support from governments through joint platforms and improved policies at national and global levels. As SGP Global Manager, he has overseen its expansion to a truly global programme of 128 participating countries with more than 20,000 community-based projects. In the 2016 SEARCA Golden Anniversary, he was conferred the "Outstanding SEARCA Scholarship Alumni Award" for outstanding work in Policy and Governance.

Not wanting to pursue the UN's mandatory retirement in 2016 but to continue on with activist work, he formally joined WWF International as Practice Leader in Governance on 9th January 2017. Brod Delfin now oversees the global work of WWF in promoting the rights to lands and territories of indigenous peoples and local communities through Inclusive Conservation, the anti-corruption work impacting on natural resources and the environment, and civil society networking and advocacy to support the effective implementation of the SDGs.

ROBERTO V. OLIVA UPLB '74E

A FORESTER-LAWYER, Brod Roberto "Obet" Oliva is considered one of country's pioneers of environmental law in the Philippines and Southeast Asia.

He is a graduate of the UPLB College of Forestry and Natural Resources where he joined the fraternity in 1974, and the San Beda College of Law.

Brod Obet is a "diehard" Betan, having served in various leadership roles in the Fraternity since his student days and up to the present.

His professional career is sterling. He first worked as a Planning Officer in the Philippines' Department of Environment and Natural Resources (DENR). Thereafter, and in the next 30 years from 1990 - 2010, he had been involved in natural resources projects working in international and non-governmental organizations.

He assisted the drafting of various natural resources laws and subsidiary legislation in the Philippines and other countries. In 2004, he assisted the government of Kenya with its subsidiary legislation in forestry.

From 2011 to 2013, he served as the DENR Assistant Secretary for the Land Sector. During his tenure, Brod Obet inspired the sector to deliver better public service under the theme - "Land Sector: Serving You with Excellence, Now Shining Through."

From April 2013 up to April 2018, he served as the Executive Director of the ASEAN Centre for Biodiversity, the only ASEAN Centre based in the Philippines. He helped transform the center into a full-fledged and recognized international organization.

For his various advocacies, he has received many awards and commendations, among them the Mangkono Award - the highest award given by the UP College of Forestry to its outstanding graduates, the Outstanding Citizen Award from Los Baños, Laguna and the UPLB Outstanding Alumnus Award.

Awardees for Leadership and Service to the UP Beta Sigma Fraternity

NORMAN M. BITUIN UPD '65

ON DEC. 9, 1965, on his "Take 2", Brod Norman Bituin finally succeeded on his hard-fought struggle and dream to become a UP Beta Sigman. It was during his freshman year in 1963 after he had joined the first batch of the newly formed Alpha Sigma that he quickly realized this was not the fraternity he wanted to be in.

He was practicing karate and had learned later of the legendary skills of Johnny Chiuten and the fearsome reputation of the UP Beta Sigma karatekas. Brod Norman resigned from his organization after meeting brods Jopet Laraya and Noli Nolasco. However, on his first attempt in 1964 after the initial session and "dukot", some masters discovered his former affiliation and he was rejected and deferred to the next batch.

What followed was a year-long (but what seemed like an eternity) mental and physical test of will and determination of proving himself worthy training and practicing with brods Jopet and Noli, among others. To these two "masters", he owes so much. He applied for the second time in 1965 and made it. Brod Jopet even had the honor of giving him his Betan mark - the "paso".

Brod Norman naturally became an active member of the UP Beta Sigma Kung Fu Karate Club, participating in exhibitions and competitions with the brods.

After a classic confrontation with a rival fraternity barely after he became a Betan, the editor of "The Betan" Brod Jimmy Yambao jestingly gave him his alias - "The Scourge of P—i".

REYMAR L. LACAYA+ UPD '76

When Brod Reymar Lacaya was first appointed judge in his home province of Zamboanga del Norte, he would take the bus every day at 5 a.m. to make it make it to work on time at 8 am, his daughter Joy recalls. This was his routine for years until he turned 60, when he brought his own pickup truck and started driving.

One day, while commuting for work, a fellow passenger scolded Brod Reymar for taking his seat, prompting him to just quietly to transfer to another seat, instead of making a big fuss about the situation.

"He had no enemy and was never known to be corrupt, or someone who would demand bribes," Judge Rogelio Laquijon was quoted as saying in a local media report. The two judges had been best friends since law school and passed their bar examination the same year. "His death is really so painful for me," he says.

By mid-afternoon last May 9, Brod Reymar, 61, now the regional trial court in Liloy town, had just wrapped up all the cases in his docket and was leaving the courthouse, when he was gunned down by a still-unidentified assassin.

No less than Supreme Court Chief Justice Lucas Bersamin immediately called on law enforcement agencies to expedite their investigation as "the entire judiciary condemns in the strongest possible terms the killing of Judge Lacaya."

Brod Reymar had been in the judicial service since 1999. He had just been transferred to Liloy from Sindangan town three months before his death.

His daughter, Joy said her father had sacrificed "a lot" to do his job right. "He would

rarely take a leave of absence because he said there is always work to be done."

Indeed, during his lengthy service, he has constantly advocated for justice, upheld peace and order and ensured peace under his jurisdiction.

From court employees to family members, Brod Reymar was reportedly described as "down to earth and with a great sense of humor."

Brods who have known him since his UP Manila days, can attest that humility was really Brod Reymar's unforgettable trait. Although diligent in his studies, he managed to be always present at the "tambayan" and the Fraternity's campus activities, notably during the basketball intramurals in UP Manila where he was our "star" player when our team consistently won the championship.

Still, Brod Reymar showed academic excellence by completing his college degree in three-and-a-half years to pursue law studies.

As we grieve for our fallen brother, we also send out a cry for justice on his behalf.

Brod Norman graduated from the College of Business Administration in 1968 and worked in the pharmaceutical industry. He returned to UP after two years and received his MBA in 1972. He was the Diliman GP in 1971-1972.

He worked briefly as Assistant Director at the Responsible Parenthood Council hired by Brod Ding Navarro and as Accounting Manager at the Development Academy of the Philippines hired by Brod Boy Morales.

In 1973, Norman emigrated to Canada and was a study director for a marketing research firm in Toronto. In 1976, he moved to Los Angeles, California and changed profession to the IT field. He was a software engineer with Coopers Lybrand (now Pricewaterhouse-Coopers); a contract programmer for several companies - Rockwell, McDonnell Douglas, Boeing Aircraft, Arco Gas, Toyota Motors USA, Isuzu Motors, Mitsubishi Motors, City of Los Angeles, Southern California Gas, Arizona Public Service in Phoenix, Entergy in New Orleans, etc. He retired in 2015 with Southern California Edison.

Norman was the GP of UP Beta Sigma Southern California in 1992-1994. He became President of the UP Beta Sigma International in 2005-2007. Today, he continues to be the webmaster of the UP Beta Sigma International website, a task he took over in 2008 from Brod Ollie Jumao-as.

SALVADOR G. GARBANZOS UPD '63

ONCE upon a time, there was a barbarian from the small town of Guimbal, Iloilo. Born of parents who were public school teachers, he finished his elementary education at the University of San Agustin in Iloilo City, and his high school and his Associate in Arts at the UP Iloilo College. He later pursued further studies in UP Diliman where this young "barbarian" was transformed into a Beta Sigman, along with other members of his batch, the Great Escape, in 1963.

Brod Salvador "Buddy" Garabato Garbanzos, has always been an active Betan. During his university days, he was involved in the usual Fraternity campus activities: helping out in the campaign of brods seeking elective posts in student organizations, helping construct billboards and putting up posters for Folkways, joining the brods in their weekly haranas of

ladies' dorms, karate exercises, and partaking of the chug-a-lug sessions.

He later became the associate editor of the Philippine Collegian.

After leaving UP Diliman, Brod Buddy went on to work as an assistant to then Executive Secretary Rafael M. Salas in Malacañang and in the Philippine Embassy in Bangkok. He proceeded to be Group Vice President of the Development Academy of the Philippines, Consultant to the Minister of Natural Resources and President of his own company, Consummate Consultants.

In the course of his professional career, he has provided his consulting services to heads of government agencies and private corporations, including congressmen and senators. He wrote and edited the 50th Golden Anniversary publication of the UP Beta Sigma Fraternity, including its history along with the definitive biographical sketch of our departed, well-known and much loved creator of Malmom, Brod Banz Banez.

Even before the passage of the Non-Hazing Law, Brod Buddy, along with a few other brods from Los Banos and Diliman, pioneered the adoption of non-violent, non-physical initiation processes. He also conducted planning sessions for the alumni association and leadership workshops for the residents.

He drafted the structures, policies, procedures, and processes for the territorial chapters, regional and National assemblies of the Fraternity. He has served as National Executive Vice President, Beta Sigma National Assembly; President, National Capital Regional Assembly;

STEPHEN JOEL C. PAREDES UPD '73D

BROD Stephen Joel C. Paredes is a professional media practitioner as a journalist and writer for over 40 years.

As a practicing newsman, he worked for three Manila-based English national daily newspapers (Malaya, Business Mirror and the defunct Times Journal), an English financial daily (Money Asia), an international news agency

RANDY P. FELIX MALAYAO+ UPV 89

IN PRISON, Brod Randy Malayao "endeared himself to all by consoling distraught fellow prisoners, volunteering to write letters and conduct literary programs for the illiterate inmates, organizing medical missions and sports fests, and acting as paralegal, among others," wrote his friend, journalist Raymundo B. Villanueva.

"He readily shared his food, medicines, even electric fans and reading materials to all fellow prisoners. As the most learned and erudite of all the prisoners he was the

instant choice whenever they were dignitaries or groups of students who visit the jail. He engaged the prison authorities on how improve the conditions inside the facility. In both the Tuguegarao and Ilagan jails he was elected prison governor by the inmates," he said.

That was Brod Randy, indeed. He was there to help -without any reservation, whether as a social activist or as a revered Fraternity brother.

He rendered unselfish service to the less fortunate - unparalleled selflessness in all his 49 years of existence. A highly enthusiastic Betan he was always a good listener and never sought any publicity for his actions.

A true Beta Sigman with a genuine heart to service the people. Brod Randy was born to a local Department of Interior and Local Government official and a homemaker in the old town of San Pablo, Isabela. He was the youngest in the family.

As a pupil and student Randy was consistently at the top of his class and was always a winner in district and provincial school contests. After

graduating as valedictorian of Minanga Elementary School, he took his secondary studies at the Isabela State University Science High School. He passed the University of the Philippines College Admission Test and was first enrolled at university's Diliman campus. He later transferred to UP in the Visayas-Miag-Ao to pursue a Bachelor of Science in Fishery degree. He graduated in 1992.

It was in Miag-Ao that Brod Randy was initiated into the Fraternity. As a student activist, he was the founding chairperson of the League of Filipino Students-UP Miag-Ao Chapter. In his senior year he assumed the chief editorship of Ang Mangingisda, the official student publication.

Villanueva recalled that among fellow students in Iloilo, Brod Randy was known as "an elder brother, letting them stay in his rented apartment in Iloilo City and letting them use his personal computer for free. Randy was among the first students to own such a gadget in the entire province." He helped everyone who sought his assistance in writing theses and academic papers.

(Agence France-Presse), a regional media conglomerate (Singapore Press Holdings), an Asean regional financial weekly (The Edge), a government media network (National Media Production Center), two national affairs magazines (The Leader and Philippine Graphic), a specialized magazine (BioLife), a political weekly (Pinas) two daily tabloids (Tinig ng Masa and Remate) and an online news network (Interaksyon). He was also a commentator for two radio networks (DwIZ and DzRH) and handled Jeep ni Erap radio program (DzMM).

He served a senior post in government as Director-General of the Philippine Information Agency (1998-2001) and as the Philippines' chair in the sub-committee on information of the Asean Committee on Culture and Information.

After his brief stint in government, he organized the People and Advocacy Inc. (2004-2012), a non-profit organization that provided consultancy work on development communication work and managed media and advocacy campaign of private and government client agencies, including the United Nations System in the Philippines. He was also the

media and advocacy consultant of the United Nations Development Programme (which include campaigns on the Millennium Development, Multi-Donor Programme 1 and 2 and the the Human Development Goals and the Mindanao Peace and Development Programme).

He was also acting general manager of the Jose G. Burgos Media (2004-2012), Services Inc., which used to be publish Malaya and We Forum, where he also helped lead the development communication campaign of the Department of Agriculture in the promotion of biotechnology and several development NGOs' media and advocacy initiatives.

He was a professorial lecturer in journalism and mass communication at the University of the Philippines and the Polytechnic University of the Philippines, the country's two largest universities.

During his stint as a newspaperman, he was president of the Malacañang Press Corps (1986-1990), secretary general of the National Union of Journalists of the Philippines (1989-1998), chair of the Kapisanan ng mga Manggagawa sa Media ng Pilipinas (1986-1989) and regional advisor of the International Organization of Journalists

and governor Rodolfo Aquinaldo. Fearing for his life Randy started making himself scarce, even among friends and family. But he never wavered in his commitment to help the marginalized sectors of Cagayan Valley region.

On May 15, 2008, Brod Randy was abducted by members of the Intelligence Service of the Armed Forces of the Philippines while on his way to a home of a friend in Cainta, Rizal. He was blindfolded for four days as he was made to suffer many forms of physical and psychological torture. Despite severe pain and mortifying fear for the safety of his loved ones Randy refused to tell lies. His torturers want him to say to save himself. Such was the severity of his torture that he was unaware he was driven from Metro Manila to his home province of Isabela (more than 400 kilometers away) where he was surfaced by the 5th Infantry Division of the Philippine Army nearly five days after his abduction.

After he was surfaced by the Philippine Army, Brod Randy was taken to the Tuguegarao City Jail in Cagayan Province to be charged with the murder of Aguinaldo and other persons. In mid 2010, Brod Randy was found innocent of the Aguinaldo murder charge. He was then transferred to the Ilagan District Jail to face the other murder and frustrated murder charges against him.

(1996-1998). He is a lifetime member of the National Press Club and Samahang Plaridel.

He currently serves as vice president of the Batis Center for Women, an NGO on distressed and battered women where he has been a member of its Board of Trustees for three decades. He is a member of the Board of Trustees of the the Advocacy House for Grassroots Communication and Development -Asia and leads the IFARM (Initiative for Farm Advocacy and Resource Management, Inc.).

Brod Joel was president of the UP Beta Sigma Inc. from 2017 to 2018 and served as a member of the Alumni Board during the incumbency of Brods Horacio "Boy" Morales, Renato De Rueda, Rolando Reyes and Jojo Alejar. He remains an ex-officio member in the new Board.

He completed his AB History degree at the University of the Philippines, where he joined the Fraternity in 1973 and later pursued graduate studies in Journalism and Industrial Relations. He was the Fraternity's master of the rolls for three terms when he was a resident brod and at one time became its faculty adviser.

A few days after his surfacing in 2008, the National Democratic Front of the Philippines Negotiation Panel formally announced that Brod Randy was a consultant to the peace talks with the Government of the Philippines. As such, the NDFP said, Brod Randy was protected by the Joint Agreement on Safety and Immunity Guarantees of 1995 and should be immune from arrest and torture. The NDFP maintains to this day that Brod Randy should be released under JASIG and all charges against him be dropped.

In 2017, Brod Randy was elected as a member of the UP Beta Sigma Fraternity Inc. Board of Trustees, representing the UP Visayas. He actively helped organize Fraternity activities in and out of the UP campuses, while being the Board's representative to the resident brods.

On Jan. 30, 2019, as a "publicly known (NDF) consultant," Brod Randy was asleep inside a bus on a stopover in Aritao, Nueva Vizcaya when he was gunned down at early dawn. The Commission on Human Rights (CHR) later issued a statement, saying that Brod Randy's murder happened "when voices of opposition and human rights groups are tagged as enemies, making them possible subjects of assault."

We Remember

We remember the first day we were called "brods".

It was Quezon Day, Monday, August 20, 1962. It was a holiday to commemorate the birthday of the country's President during the Commonwealth period.

More than half a century has passed. Diosdado Macapagal was still President of the Republic. Carlos P. Romulo, fresh from his diplomatic successes in the UN, was just installed UP President. Jelly Nacino was Grand Prince of the best fraternity on campus.

UP students were talking about Marilyn Monroe who was in the cover of Life Magazine. She just died of drug overdose. "The Birdman of Alcatraz" was showing downtown. While cramming for exams, we tuned in to JO San Diego on DZMT for the day's popular songs by Neil Sedaka, Bobby Darin, Bobby Vinton and of course Elvis Presley.

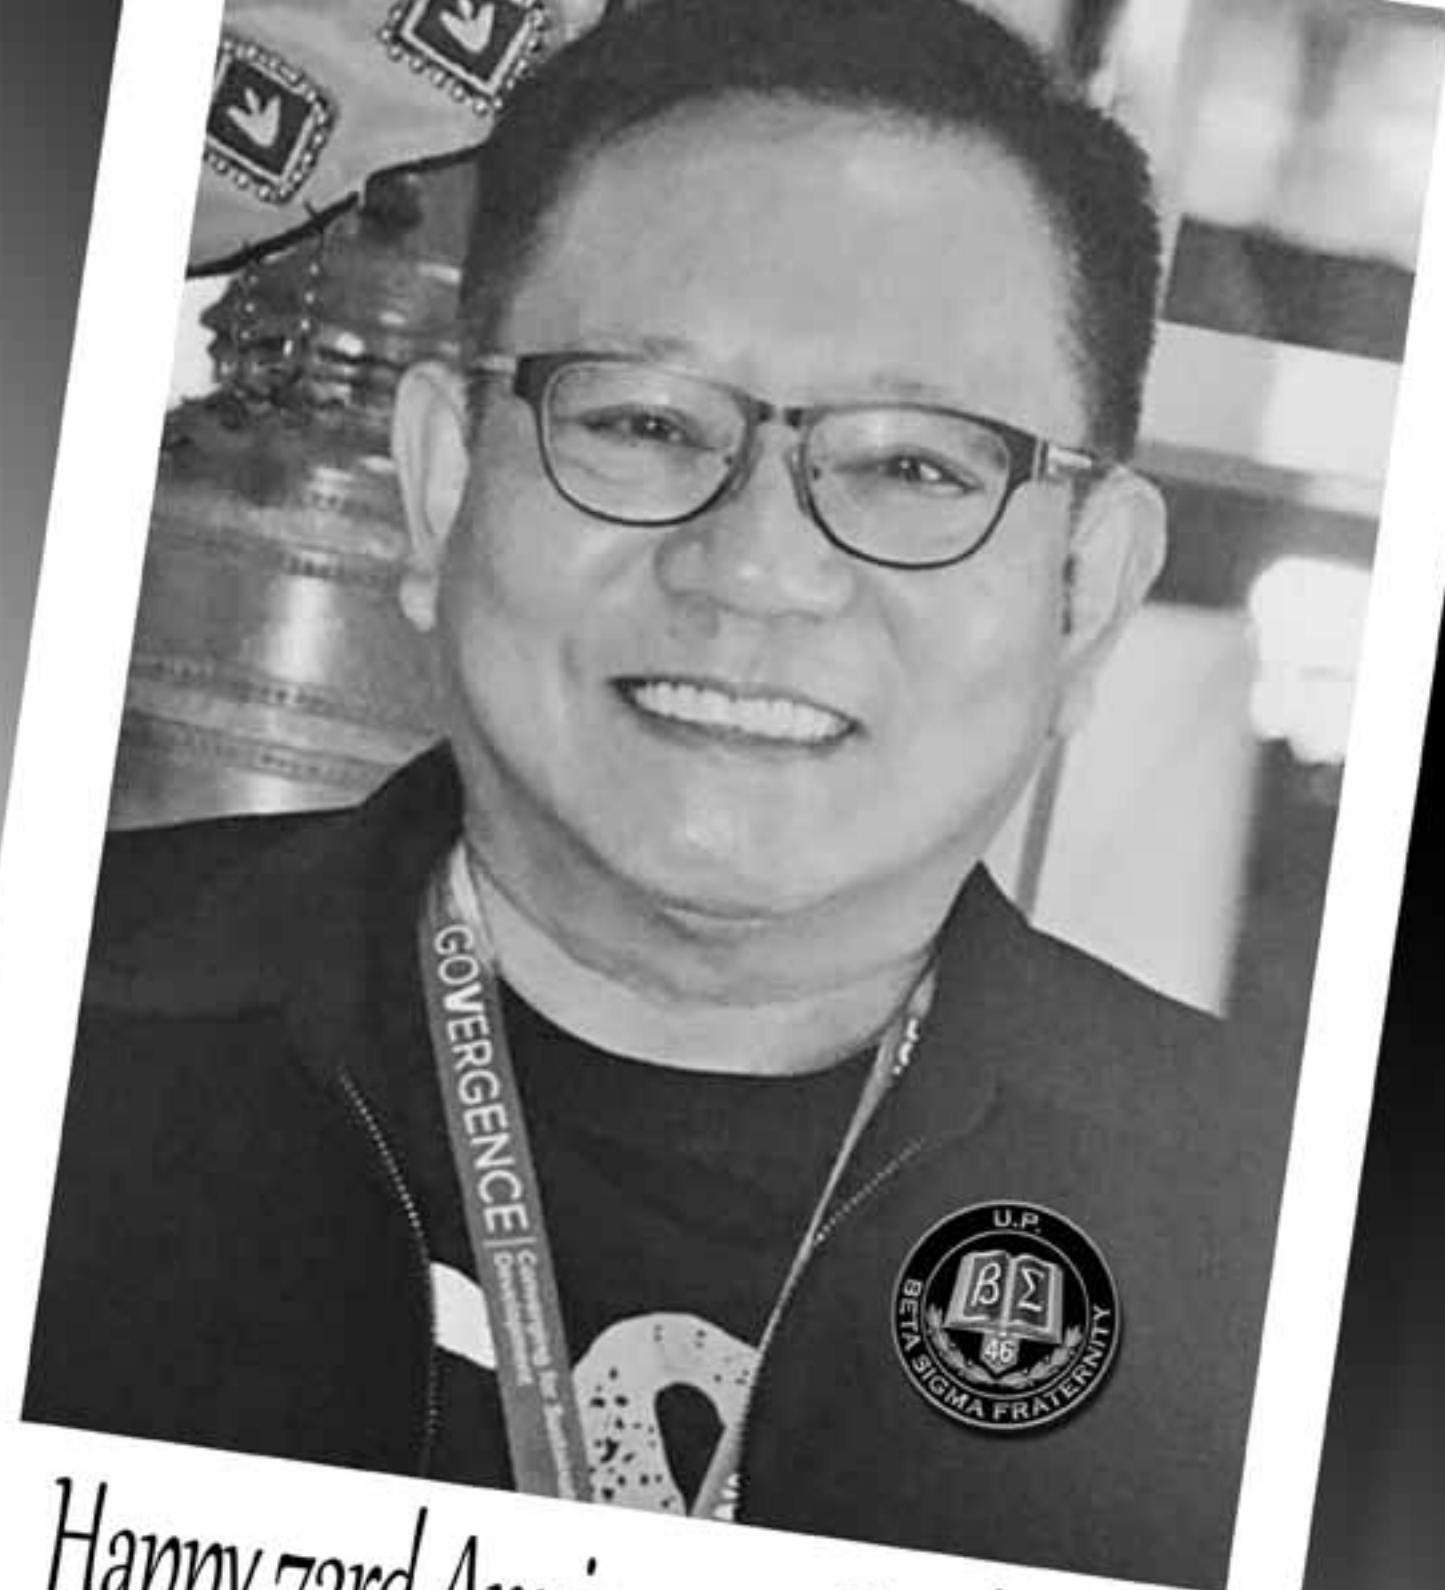

But on that particular day, as neophytes, our only concern was how to toughen our minds and bodies for the "finals". We remember being brought to a farm in Bulacan. By God's grace we survived that rite of passage before the end of the day and were warmly hugged and welcomed as newly minted Beta Sigmans.

After all these years, among myriads of memories, what we most miss are our brothers who have gone ahead. With heavy hearts we have lost almost half of our batch mates — Papu, Jolly, Dong, Franklin and Boygee. We can only pray for peace in their eternal rest.

In joining the fraternity, we only asked for a sense of belonging to tide us over during our vulnerable campus years. Instead we got a lifetime of friendships that enriched our careers and total well-being.

Today we give thanks to a brotherhood that has been steadfast and true! Diliman batch 62A, The Quezon Batch

Fellowship - it's companionship, friendship, solidarity. We believe Beta Sigma's fraternity fellowship, through the years, has deepened because of traditions and your core values of brotherhood. Thank you for this legacy. We are so proud to be part of the UPBS family !
